

EUROPEAN BRUSHWARE FEDERATION

JOIN THE ACTIVITIES OF FEIBP AND ATTEND THE ANNUAL FEIBP CONGRESS

FEIBP is the representative EU trade federation in the field of the brushware industry, a traditional but very innovative sub-sector, providing an impressive variety of brush products, both for the professional and consumer markets.

No home, office or factory is without brush products!
Quality, sustainability, co-makship and JIT are drivers for our industry.

FEIBP promotes and defends the EU brush industry and is visible via magazines, participation into InterBrush, newsletters and **www.eurobrush.com**

The membership is open for those companies directly or indirectly involved into the industry

- National associations of brush manufacturers (full members)
- Suppliers (associated members)
- Individual manufacturers (international members)
- Non EU manufacturers (international members)

For information on membership please contact:

FEIBP
Fons Ceelaert, general manager
FEIBP@wispa.nl

10 reasons to attend the European Brushware Federation Congress and to become a member of FEIBP

1. It is the only annual meeting point for the European brush industry. It is held in a different European country each year, generally in city locations close to major rail and airport links, making it easy and cost effective to get to.
2. It is attended by many brush manufacturers covering all main areas of the market (technical brushes, professional food hygiene brushes, paintbrushes, household brushes and dental care brushes)
3. A unique chance to meet all main raw material suppliers and machine manufacturers in the same place.
No language barriers – professional simultaneous translation is provided (French, German, Italian and English)
4. Be part of the interactive FEIBP website, with product/market information on all brushware products
5. Listen to technical presentations – all on topics relevant to your company and your industry
6. Take part in working groups for more detailed discussions with your peers to help benefit your company:
 - Working Group Professional Hygiene Charter: a group of 21 registered companies, delivering hygiene products compliant with all existing hygiene regulations.
 - Working Group Paint Brushes: Dealing with quality and market issues
 - Working Group Technical Brushes: Technical developments and research initiatives
7. FEIBP has strong contacts within the EU institutions and European Chambers of Commerce to discuss and advice on behalf of our industry with regard to EU legislation and regulations
8. Network with professional industry contacts and meet potential new customers
9. The FEIBP Congress has been held for more than 50 years and is a fun and very well organised event for both delegates and partners
10. Becoming a member helps strengthen the brush industry and secures jobs in Europe!
